

Good Afternoon,

Please find below updates regarding **select non-NSF-Compliant styles**, as well as **Regulator Kitchen Faucet** status:

NSF Compliance Update

With updated US NSF61 requirements in place, effective January 1st, 2024, 17 lavatory and kitchen faucet styles remain in testing to confirm compliance with the latest low-lead regulations. Given that availability for these styles below remains unconfirmed, the impacted product(s) will be moved into development pending compliance approval. This move will occur **today, June 17th**, and the affected products will be removed from the web and The Portal accordingly. These items are temporarily unavailable to order or quote. **Please note, this is only 17 individual styles, not complete families affecting primarily kitchen.**

STYLES IMPACTED (temporarily unavailable to quote/order or ship) All Finishes:

All future item numbers (to be NSF-compliant) are in development and **unavailable to enter on Sales Quotes & Orders.**

OTHER REGULATOR KITCHEN PRODUCT AVAILABILITY

The below styles in the Regulator Kitchen assortment meet all NSF61 and Low-Flow requirements and are available to quote/order. For Stock availability, please check the Portal for On-Hand quantities and open POs; there is a healthy amount of inventory available for these styles.

RGKM01 and RGKM02: Regulator One Hole Gooseneck Bar Faucets with Wheel Handle

RGPF01 and RGPF02: Regulator Wall-Mounted Articulated Pot Fillers

DISPLAY UPDATE

As a reminder, all Regulator kitchen displays should contain signage that references the current availability of Regulator Kitchen products. If you do not currently have the signage to accompany your Regulator kitchen displays, please contact Melinda Ness to let her know which signs you are missing, and to have additional signage ordered for your showroom.
