FOR IMMEDIATE RELEASE:

ThermaSol® Introduces ThermaTouch2, the Next Generation of Smart Wellness Technology

Round Rock, TX, July 2024 – ThermaSol®, the original wellness company since 1958, has launched the next generation of smart wellness technology with the ThermaTouch2 line of controls.

The ThermaTouch2 in-shower control is available in three industry-leading sizes: 7-inch, 10-inch and the newly unveiled 15-inch screen option. The ThermaTouch2 15 boasts the largest display screen on the market, featuring a brand-new user interface and exclusive, cutting-edge functionalities.

"We continue to pioneer the wellness category of the decorative plumbing industry with our next-generation ThermaTouch2 controls, featuring a new 15-inch screen option – the largest of its kind," states Patrick Weidl, director of business development. "The next-gen ThermaTouch2 sets the standard in functionality, design and in-home wellness technology. Its sleek, enhanced control face integrates effortlessly into any shower space, while its advanced Android™-powered system offers a comprehensive range of popular apps, including live TV and music streaming, and syncs seamlessly with smart home technology. By pairing our ThermaTouch2 control with the HydroVive Rainhead, PRO Series Steam Generator, and Digital Shower Valve, users can customize every aspect of their daily shower experience, creating the ultimate spa experience right in their own home."

THERMASOL®

Shower | Steam | Sauna

With ThermaTouch2, enjoy the convenience of smart home compatibility. Turn the shower on remotely, set water at a certain temperature and pressure, activate steam therapy and control chromatherapy options through voice-activated smart home assistants.

The ThermaTouch2 controls are equipped with popular apps, including YouTube TV, Netflix, Hulu, Paramount+, Apple Music, SiriusXM, HBO Max and more. With a focus on health and wellness, ThermaSol also included relaxation apps such as Calm and Chakra Meditation as well as preset tranquility scenes. ThermaTouch2 controls are powered by Android™ technology and allow internet access through WiFi or an ethernet connection.
