Visit [moen.com](https://www.moen.com) for additional information.

## AN ALL-IN-ONE SOLUTION FOR ENHANCED INSTALLATION

Moen is simplifying the installation of widespread bathroom faucet valves and offering additional flexibility in the design process. Select Moen® widespread bathroom faucets will now come with the valve and trim packaged together. By moving from two SKUs to one, Moen is helping to reduce the number of boxes on the job site and streamline inventory management. Additionally, the new valves are more efficient to install, with the hot and cold valve bodies dropping in from the top down. They don't require valve body outlet alignment and come with improved integrated mounting hardware.

For legacy trim kits, the current 9000 valve will be maintained and come with a pre-installed adapter that accommodates those kits.

Moen® received the highest numerical score in the proprietary Lifestory Research 2016–2024 America's Most Trusted® Faucet studies. Study results are based on experiences and perceptions of people surveyed. Your experiences may vary. Visit [lifestoryresearch.com](https://www.lifestoryresearch.com).
