

Since the launch of the MultiChoice Universal Integrated Shower Diverter Rough in 2016, we continue to receive requests from our sales associates to install non-diverter tub spouts with this popular rough configuration. After extensive testing and evaluation, we have identified additional non-diverter tub spouts we now recommend for installation with the integrated shower diverter rough platform.

Delta Models	
Delta Linden® Non-Diverter Tub Spout RP43028 Available finishes: PC, CZ, PB, PN, RB, SS	
Delta Vero® Non-Diverter Tub Spout RP48333 Available finishes: PC, CZ, RB, SS	
Delta Lahara® Non-Diverter Tub Spout RP53237 Available finishes: PC, CZ, RB, SS	
Delta Ashlyn® Non-Diverter Tub Spout RP77092 Available finishes: PC, RB, SS	
Delta Trinsic® Non-Diverter Tub Spout RP77350 Available finishes: PC, BL, CZ, RB, SS	
Delta Pivotal® Non-Diverter Tub Spout RP90159 Available finishes: PC, BL, KS, PN, SS	
Delta Dorval® Non-Diverter Tub Spout RP100197 Available finishes: PC, BL, CZ, SS	
Delta Dryden® Non-Diverter Tub Spout RP100747 Available finishes: PC, CZ, PN, RB, SS	

Brizo Models	
Brizo Rook® Non-Diverter Tub Spout RP78582 Available finishes: PC, NK, NKBL, PN, RB, GL	
Brizo Litze® Non-Diverter Tub Spout RP81435 Available finishes: PC, GL, NK, PN, SL	
Brizo Vetti® Non-Diverter Tub Spout RP90567 Available finishes: PC, BL, NK	
Brizo Levoir® Non-Diverter Tub Spout RP92041 Available finishes: PC, NK, PN, GL, SL	
Brizo Invari® Non-Diverter Tub Spout RP100328 Available finishes: PC, NK, GL, PG, SL	
Brizo Kintsu® Non-Diverter Tub Spout 73606 Available finishes: PC, NK, GL, BNX	

The following non-diverter tub spouts feature stream straighteners or internal geometries that significantly reduce the occurrence of dripping upon shutoff due to water left in the pipes. Although we cannot guarantee that no water will drain/drip from these tub spouts upon shutoff, these products exhibited very little drainage upon shutoff and did not purge water overnight when tested in our lab.

Based on the findings from our test results, we will be revising our tech docs to remove “Not Recommended for Tub Spout Installation” verbiage from all technical specifications and literature.

As new non-diverter tub spout products are developed, we will work to incorporate the proven design features noted above to provide additional options for tub spout installations with our popular integrated shower diverter platform.
