

# Built-in Range Hoods

Quiet Power. Hidden Versatility.

best®

Busy home chefs want clean air and many prefer the subtle, sleek look of a built-in range hood. BEST engineers design built-in models to work with a variety of kitchen designs and homeowner tastes. When kitchens require customization, built-in range hoods are what we do best. These ultra-powerful, whisper-quiet range hoods deliver a perfectly ventilated experience.

## FOCUS TECHNOLOGY

NEW

**True iQ Blower System** is the quietest blower system, offering near-silent operation. It is powered by our exclusive TrueCFM technology, which guarantees performance with automatic, real-time calibration.

NEW

**SmartSense Pro** delivers an automated ventilation solution with smart algorithms detecting heat from the cooktop and automatically adjusting fan speed based on heat, humidity and VOC pollutants.

NEW

**Correlated Color Temperature (CCT)** technology gives home chefs many color temperature options to customize range hood LED lighting — from 2700K to 5000K — to match kitchen light color. Adjusting is easy with the control panel or the BEST Kitchen app.

**Code Ready Technology® (CRT)** can limit airflow to 300 or 400 CFM (or 600 CFM on select 1200 CFM models) to comply with local make-up air code requirements.

**EZ Install** bracket system saves time and money with simplified installation.

**Wi-Fi**, Bluetooth and voice control capabilities enable hands-free operation; all of our built-in products are also compatible with the **BEST Kitchen app**.

**SmartSense** uses infrared sensors to monitor heat coming from the cooking surface and automatically adjusts hood fan speed.

**5-year parts/2-year labor limited warranty** helps keep range hoods in proper working order.

**HBN1**  
SERIES

- 2022 Good Design Award winner
- Max CFM: 650
- Width: 24", 30", 36"
- **Depth: 11<sup>7</sup>/<sub>16</sub>"**
- Sound level: 0.3 sones at low speed
- Control: Soft-touch offers 4 fan speeds, 3 LED lighting levels

**NEW HBN65**  
SERIES

- Max CFM: 650
- Width: 30", 36"
- **Depth: 14<sup>3</sup>/<sub>16</sub>"**
- Sound level: Less than 0.3 sones at low speed
- Control: Slider offers 4 fan speeds, 4 LED lighting levels

**NEW HBN22**  
SERIES

- TrueCFM: 1240
- Width: 30", 36", 48"
- **Depth: 15<sup>9</sup>/<sub>16</sub>"**
- Sound level: Less than 0.3 sones at low speed
- Control: Slider offers 8 fan speeds, 8 LED lighting levels with CCT

**NEW HBN3**  
SERIES

- Max CFM: 650, 1200
- Width: 30", 36", 48"
- **Depth: 20<sup>1</sup>/<sub>4</sub>", 23<sup>1</sup>/<sub>2</sub>"**
- Sound level: Less than 0.3 sones at low speed
- Control: Slider offers 4 fan speeds, 4 LED lighting levels

**NEW HBN5**  
SERIES

- TrueCFM: 620, 1240
- Width: 36", 42", 48", 54", 60", 66"
- **Depth: 20<sup>1</sup>/<sub>4</sub>", 23<sup>1</sup>/<sub>2</sub>"**
- Sound level: Less than 0.3 sones at low speed
- Control: Slider offers 8 fan speeds, 8 LED lighting levels with CCT
