

# EFFORTLESSLY COOL

**Viking 5 Series Built-In Refrigeration** complements the commercial-style kitchen in both form and function. Exceptional features such as LED Lighting and PlasmaCluster™ Air Purification System along with large capacity interiors provide superior cold storage and excellent food preservation.

## NEW & IMPROVED FEATURES

### NEW R600A REFRIGERANT

- Global Warming Potential (GWP) is an excellent step towards reducing the environmental impact of a refrigerator.
- Minimizes the carbon footprint, making your kitchen more eco-friendly.
- Extends the life of the compressor for additional years of reliable service and provides quieter operation.

### IMPROVED ICE MAKER IN FREEZERS

- New and improved ice maker provides improved reliability, more control and better bail arm integration.
- Reliable and efficient ice production is essential for everything from everyday drinks to entertaining guests, and having better control and integration just makes it all the more convenient.

### VARIABLE SPEED DC COMPRESSOR

- A superior Embraco compressor system includes the most advanced technology in refrigeration, coupled with the quietest operation available. This combination ensures not only efficient and reliable performance but also a quiet kitchen environment.
- The compressor adjusts the BTU output for the appropriate cooling cycle with lower energy usage to effectively manage power consumption, providing optimal cooling while being energy-efficient.

### ADDITIONAL QUALITY AND TESTING

- New fans provide quieter operation to make a huge difference in creating a peaceful home environment.
- Quality Check for door alignment on every unit.
- New End of Line Testing is completed on all 5 Series Refrigeration.
- Every ice maker is tested at the End of Line to complete a harvest of ice.
- Over 6 months+ of Long Term testing of the new R600A models has been completed on new R600A units.
