

Go with the Flo Moen® Display

Help your plumbers protect their customers' homes from water leaks and damage with the Flo Smart Water Monitor and Shutoff.

This device constantly monitors the water flow in the home and sends alerts if it detects any potential issues or leaks—even as small as a drop per minute. It can also automatically shut-off the water to prevent minor leaks from turning into major problems.

The “Go with the Flo” display is your go-to solution for all plumbing water shut-off monitoring needs. Ideal for both remodels and repairs, this new display offers everything your plumbers need to make a seamless addition to any project, providing homeowners with added peace of mind and ensuring efficient, reliable water shut-off management.

Display to be placed from May 1, 2025 til at least October 31, 2025.

Complete the form below to confirm your Go with the Flo Moen Display.

Attach PO to this order form and return to your territory manager to receive a 5% discount of initial load.
