What is it about our **NEW Knobs** ?

New Knob Design = Flex Control Knobs

- **Left button** to press while pushing and turning knob
- **Can be disabled** by removing the knob and switching from 3-step to 2-step
- Added to **all new models with front controls ...** (Gas F/S and all S/I)

New Knob Messaging:

Flex Control Knobs, Designed for Life

Control and flexibility at your fingertips. Our Flex Control knobs let you customize your kitchen. For an extra layer of peace of mind, this 3-step pinch, push and turn knob motion is a great option for homes with kids or pets. Simply switch the knob setting if you prefer the standard 2-step push and turn knob motion.
