

CLARIFI™ 2-STAGE ADVANCED WATER FILTRATION SYSTEM

YOUR DRINKING WATER MADE BETTER.

Upgrade your drinking water by reducing 72 contaminants with the Delta® Clarifi™ Two-Stage Advanced Water Filtration System. The Clarifi™ system is tested and certified by the IAPMO R&T Lab to reduce chlorine, chloramines, PFAS, lead, microplastics, and more. The compact design delivers easy-to-use in-home filtration with quick and simple filter changes, a digital display and long-life filters.

FEATURES

Pairs with a Delta Beverage Faucet

LCD Screen Monitors Filter Lifespan

Simple Twist and Lock Mechanism

- Certified by IAPMO R&T Lab against NSF standards 42, 53, 372 and 401.
- High filtration capacity provides approximately one year of filtration (or 11,000 gallons, whichever comes first).
- Audible alerts notify low battery and when a filter needs to be changed.
- Filter lives are synchronized so you can quickly and easily replace them at the same time.
