

CLARIFI™ HIGH FLOW WATER FILTRATION SYSTEM

HIGH CAPACITY, COMPACT DESIGN.

Upgrade your home's drinking water with the Delta® Clarifi™ High Flow Water Filtration System, no beverage faucet needed. The system is tested and certified by the IAPMO R&T Lab to improve your in-home water quality by reducing microplastics and chlorine taste and odor.

FEATURES

No Beverage Faucet Needed

LCD Screen Monitors Filter Lifespan

Simple Twist and Lock Mechanism

- Certified by IAPMO R&T Lab against NSF standards 42, 372, 401.
- High flow system designed to be compatible with your kitchen and bath faucet flow rates.
- High filtration capacity provides approximately one year of filtration (or 10,000 gallons, whichever comes first).
- Audible alerts notify low battery and when a filter needs to be changed.
