CLEAN WATER, CLEANER ENVIRONMENT

Moen[®] is continuing to enhance the experiences you have with comprehensive water filtration solutions that allow you to enjoy every sip right from your kitchen sink. Filtration options include both under-sink systems and above-deck faucets that elevate style and functionality while allowing you to customize your system to meet your exact needs and preferences. Moen water filtration products can remove potentially harmful contaminants from your tap water and are better for the environment by helping to reduce plastic waste.

The advanced 4-Stage Reverse Osmosis System reduces unhealthy contaminants like lead and chlorine while keeping healthy minerals. Plus, it eliminates the need for plastic bottled water for a more positive impact on the environment. The Moen Single-Stage Under Sink Advanced Water Filtration System conveniently packs the similar performance of the multi-stage carbon filtration systems into one single-stage system by removing over 30 known water contaminants. 6- or 12-month replacement filter options are available for ease of maintenance.

The 3-in-1 Water Filtration Pulldown Kitchen Faucet dispenses both filtered cold water, and hot and cold tap water through two separate water channels, eliminating any chance of mixed water flow. The 3-in-1 Water Filtration Pulldown Retrofit Wand Kit allows you to convert your existing Moen pulldown kitchen faucet into a water filtration faucet. The SIP[™] Adapter Kit allows owners with current SIP drinking water faucets to have compatibility with the carbon filtration systems.

UNDER SINK WATER FILTRATION SYSTEMS

4-STAGE REVERSE OSMOSIS WATER FILTRATION†

4-Stage Reverse Osmosis Water Filtration System

Model Number/Product Details

NEW

F9900

- 3.2 gallon storage tank included
- Pair with RO + Carbon compatible SIP faucets
- Pair with 3 in 1 water filtration pulldown kitchen faucets with airgap 105895, sold separately
- Comes with 4 replacement filters: F9910, F9920, F9930, F9940

Reverse Osmosis Membrane Stage 3 Water Filter Replacement

Model Number/Product Details

NEW

F9930

- High-efficiency reverse osmosis membrane
- Replace every one to two years depending on water quality
- Stage 3 replacement filter for F9900

Reverse Osmosis Sediment Stage 1 Water Filter Replacement

Model Number/Product Details

NEW

F9910

- Sediment pre filter
- Replace every six months
- Stage 1 replacement filter for F9900

Reverse Osmosis Carbon Block, Post-Membrane Stage 4 Water Filter Replacement

Model Number/Product Details

NEW

F9940

- Refining carbon filter
- Replace every twelve months
- Stage 4 replacement filter for F9900

Reverse Osmosis Carbon Block, Pre-Membrane Stage 2 Water Filter Replacement

Model Number/Product Details

NEW

F9920

- Refining carbon filter
- Replace every six months
- Stage 2 replacement filter for F9900
