The Quietest Blower System: Experience near-silent operation with sound levels lower than 0.3 sones at low speed—the lowest perceivable sound to the human ear. The True iQ Blower System is powered by TrueCFM technology, which guarantees performance with automatic, real-time calibration, ensuring the range hood will always perform at the correct CFM.

Correlated Color Temperature (CCT) Technology

CCT allows the end user to customize their range hood lighting to match their kitchen lighting between 2700K and 5000K. Eight color temperature options are available on the control, and there is virtually limitless adjustability when using the BEST kitchen app.

A Perfectly Ventilated Experience: SmartSense Pro delivers an automated ventilation solution with smart algorithms detecting heat from the cooktop and automatically adjusting fan speed based on heat, humidity and VOC pollutants.

Code Ready Technology (CRT) on 1200 CFM Models

Previously, CRT was only available on select 600CFM internal blower models. Now, CRT is available on select 1200CFM models as well, allowing the end user to limit airflow to 300, 400, or 600CFM.

Wi-Fi, Bluetooth, and voice activation capabilities enable hands-free operation.

Compatible with the BEST Kitchen Mobile App

INDUCTION RANGE Consumer Rebate PROGRAM

Effective Dates: April 1, 2025 through December 31, 2025

Scope: All dealers with account in good standing

The many benefits of INDUCTION COOKING

ASTONISHING PRECISION

Induction cooktops generate a magnetic field that induces heat directly in the pan. The surface is no longer the direct heat source—the cookware is. Induction offers precise, nearly instantaneous temperature response.

Coordinate ELEGANTLY HANDLES & TOUCH SCREEN CONTROLS

Whether you prefer the elegant tubular handle and clean lines of the transitional style, or want to make a bold professional-style statement with heavy-duty handles. Either option coordinates elegantly with a full suite of similarly styled Sub-Zero, Wolf, and Cove appliances.

Featuring a large 7" interactive display, the full-color touchscreen is intuitive, highly readable, and locks for safety. Clearly marked graphics help to properly center pans on the heating element.
