

New Dish Step-Up Placement

To maintain brand integrity and visibility, place the Dish Step-Up chart in the center of each dishwasher interior door, ensuring it is evenly aligned from left to right for a clean, balanced presentation. This placement is essential for all floored dishwashers.

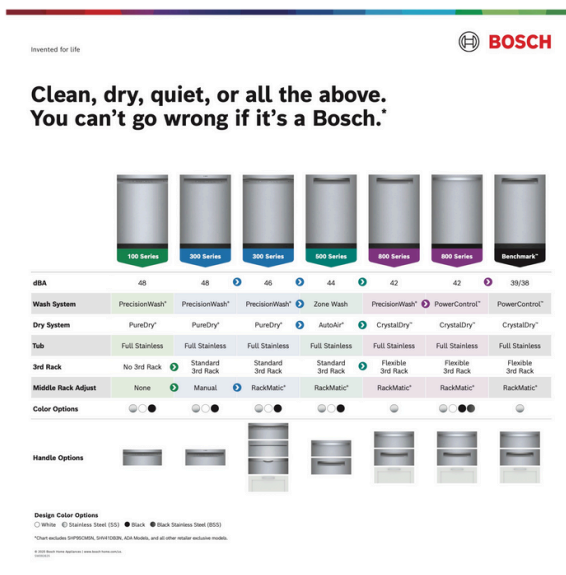

Each chart features double-stick tape on the back. Simply peel off the protective film, carefully position the chart, and press firmly to secure it in place.

Please ensure that all team members are trained on proper placement to maintain consistent brand standards across all doors.

For orders or questions, contact Krystal Buffington at Krystal.Buffington@bshg.com.
