

Experience Intelligent Outdoor Cooking

INTELLIGENT PROFESSIONAL GRILL

Features

Thermaglass™ Radiant Burner Shield

With a heat resistance of up to 1800°F, Thermaglass™ evenly distributes heat throughout the grill and protects your burner ports; juices and drippings flow quickly off the surface and into dedicated easy-clean drip trays. This revolutionary design ensures that flare-ups are a thing of the past.

Gravi-Lift™ Grill Hood Assist

Defy gravity with the AIPG's innovative counter-balanced hood lift system, and adjust the tension to your preference.

Multi-Position Sear Zone™

Tailor your grill setup to match your cooking style. The AIPG Sear Zone™ can be positioned in the left, center, or right zone of the grill to suit your cooking style and preferences. If you're left-handed or simply have a preferred searing spot, this adaptable design puts precision and comfort right where you need it.

Signature Taste X2™ Smoking System

Our exclusive Signature Taste X2™ smoking system opens a whole new world of flavors for the aspiring outdoor chef. Two strategically-placed drawers hold large chunks of wood and herbs, and linear diffusing vents naturally eject smoke at 200° to the food zone.

Sensa-Tek™ Wireless Temperature Probe

Cook with precision and confidence. The Sensa-Tek™ wireless probe lets you monitor internal temperatures in real time—so you always know when your food is perfectly done. Create and save custom settings tailored to your exact preferences; and when you're finished, simply store and recharge the probe in the AIPG's built-in docking station. Smart, seamless, and always ready for your next cook.

Intelli-Temp™ Smart Grilling Control System

Years of development have gone into the design of our custom Bluetooth® smart phone app, letting you control your Alfresco AIPG grill at the touch of a finger. Know exactly what's going on under the hood in real-time, allowing you to make precision adjustments as you cook. Customizable alarms, timers, and protein presets make the AIPG Grill app a powerful and easy-to-use tool for consistent outdoor cooking.

Lumatouch™ Control Lighting

Like the face of a luxury timepiece, the AIPG's LED knob and panel lighting offers a precision display of your burner settings. Fine-tune your temperature with ergonomic ease and accuracy. The entire control panel is also beautifully illuminated, with over 20 color options and 8 adjustable brightness levels—so you can match the mood, day or night.

Two-Position Mega-Drive™ Rotisserie w/ Dedicated Spit Rod Storage

Now featuring an updated two-position design, the AIPG Mega-Drive™ rotisserie adds versatility for both large and small cuts. The forward setting creates space for bigger birds, while the closer position ensures even heat for smaller roasts—delivering flawless, flavorful results every time.

The AIPG drawer system includes dedicated storage for your spit rod, forks, and handle—keeping everything neatly organized and right where you need it.

ALFRESCO INTELLIGENT PROFESSIONAL GRILL AIPG-36/AIPG-42
