## INTEGRALITY SYSTEM

**AUTO FLUSH**

The new INTEGRALITY SYSTEM™ reimagines gravity-fed flushing with a novel dual-valve, nested-tank design that sequences rim and bowl siphon jets. Inspired by biomimicry, two high-performing jets combine to create a strong water confluence for full bowl cleaning

No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.

**1.0 GPF**

Using only 1 gallon per flush, 1G toilets provide the most efficient flush in the industry.

**TORNADO FLUSH**

A state-of-the-art, hole-free rim design that offers dual-nozzle bowl cleansing, creating a centrifugal rinsing action that cleans the bowl more efficiently.

**CEFIONTECT**

Ceramic glaze minimizes waste from sticking to porous ceramic surfaces.

**SKIRTED DESIGN**

The trapway is concealed by smooth porcelain, making the toilet easier to clean.

**UNIVERSAL HEIGHT**

Toilet height that allows for a more comfortable height position across a wide range of users.

**WASHLET**

An electronic bidet seat featuring adjustable warm water cleansing, heated seat, dryer, deodorizer and much more.

**PREMIST**

Using the incoming water supply, PREMIST sprays the toilet bowl surface aiding in the elimination of waste approximately 80 percent better than a dry bowl.

**DEODORIZER**

Highly effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

**WARM AIR DRYER**

Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

**HEATED SEAT**

The moment you approach the toilet, the seat begins rapidly warming to a comfortable temperature.

**EWATER+**

Mists the bowl with EWATER+ keeping the wand and toilet bowl clean to reduce the need for harsh chemicals.

**ADA**

Product complies with Americans with Disabilities Act guidelines.

**COMFORT WAVE**

A mix of large droplets and standard spray creates a shower with moderate intensity and just the right amount of stimulation.

**MIST SPA**

A rich, satisfying flow of water. Awakening your mind and body. Refreshing your spirit and preparing you for a new day.

**WARM SPA**

The feeling of a warm in a shower with water flow that envelopes and warms the body efficiently with no splash.

**ZERO DIMENSION**

A zero-gravity bathing experience, letting the body float in a completely tension-free state, creating absolute relaxation for the body and mind.

**RECLINE COMFORT™**

Reclined bathing position that embraces the neck and back to provide a deep sensation of relaxation and tranquility.

**WATERSENSE**

Product that meets EPA standards for water efficiency and performance criteria.

**ECOPOWER® TOILET FLUSH VALVE, 1.6 GPF**

**FEATURES**

- 1.6 GPF
- Self-powered hydroelectric flush valve system
- No minimum daily usage requirement
- Durable chrome plated body with tamperproof screws and solid bronze valve body
- Self-cleaning piston valve with 360° filter screen
- Neutral rough-in and adjustable tail piece connection
- True mechanical flush override
- Smart sensor with self-adjusting detection range
- 6 second detection time to prevent ghost flushing
- For toilet with 1-1/2" top spud inlet
- Exposed flush valve with 1" angle stop and 1-1/2" vacuum breaker set
- Protects trap seal with a maintenance flush if not used in a 24 hr period
- IoT-enabled options available to remotely monitor usage rates, water consumption, fixture performance and streamline operations in real time with instant alerts
