ISSUE 123

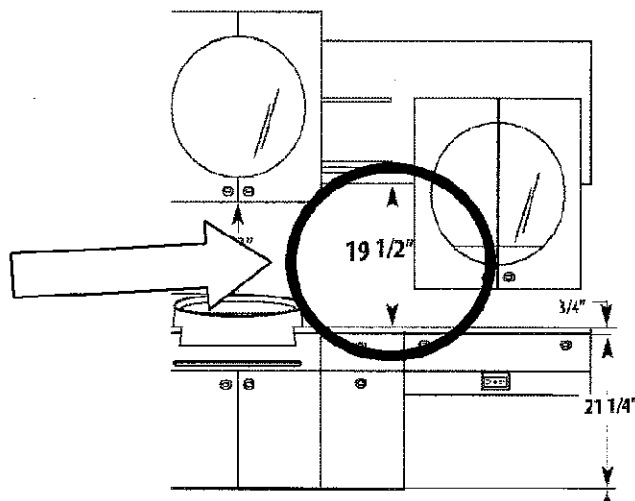

JUNE 2009

Corrections to be made Eclipse Price list, page 12

It is important to make the following two corrections on page 12 of your Eclipse price list:

- Top illustration:

Replace the measurement 17" by 19 1/2" (height between the countertop and the decorative wall panel).

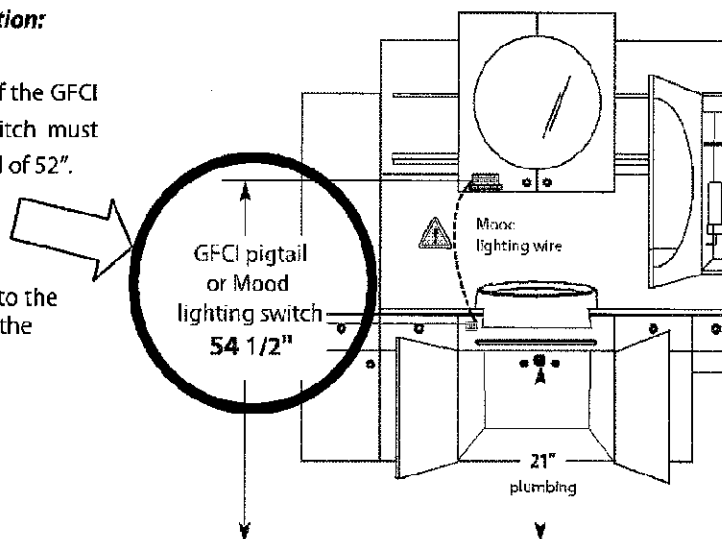

- "Electrical & Plumbing" illustration:

VERY IMPORTANT: The height of the GFCI pigtail or the mood lighting switch must be at 54 1/2" from the floor instead of 52".

These corrections have been made to the technical specs on our website and the Eclipse Installation Guide.

Thank you for your cooperation

The Vanico-Maronyx Team

PLEASE FORWARD TO EVERYONE CONCERNED
