

**New Website Announcement  
May, 2011**

Emtek Products is pleased to announce the launch of our new website. Our new site has been completely redesigned to provide a fresh, user-friendly and impactful presentation of our products. It has been designed to be intuitive and easy to navigate. Under our Resources drop down menu you will find answers to most frequently asked questions (FAQs), technical specifications and installation instructions for our products and a new "How To" video section. Access our Products drop down menu to find out what's new and gain access to PDF's of all literature and new product announcements. Also be sure to check out our brand new Inspiration section.

Our new website is designed to allow users to quickly find the content they are looking for from the Home Page. In addition, its low hierarchical structure allows users to find information easily and smoothly whether you are looking for products by function, by style or by base material. This is the first phase of a planned multi-phase upgrade and we will keep you updated as new features are rolled out. If you have comments or feedback about the new website please let us know at: [emtekmarketing@emtek.com](mailto:emtekmarketing@emtek.com)  
Please try out our new website at [www.emtek.com](http://www.emtek.com).
