# EMPIRE 2011 PRICE BOOKLET

## EFFECTIVE : MAY 2011

This is the latest comprehensive edition of our price book. Your Empire binder should now consist of 4 separate price booklets: this book, Stainless Steel sinks (dated May1, 2010), Bath Accessories (dated May 15, 2010) and coming soon – FULL DEPTH DAYTONA & METROPOLITAN for stone countertops.

PRICE INCREASE - This edition has a price increase for the newer contemporary collections and all granite and marble countertops, such as: Contemporary vanities and consoles and new model ceramic sinks. There is NO PRICE INCREASE on our older collections, such as: Lido, Doral, Greenwich, Windsor, etc.. Please e-mail us for an updated EXCEL sheet to: [ora@empire-industries.com](mailto:ora@empire-industries.com)

We are introducing some new items and discontinuing others. Items that are no longer available, do not appear in this edition.

### ***NEW ITEMS:***

1. DAYTONA & METROPOLITAN - We have enlarged these collections with 3 new glossy colors: White Gloss, Timber Gloss & Greyline Gloss. All include Premium BLUM (or equivalent) soft-closing hinges and/or soft-closing metal drawer slides.
2. MONACO collection is getting bigger! We are adding 3 new sizes – 24”, 30”, 36” and 12” middle drawer base – available as of 6/2011
3. QUARTZ - is now available in 5 colors, and 2 different cut-outs: QUARTZ EURO (18x12 rectangular cut-out) and QUARTZ NOVA (17X14 oval cut-out) (page.....96-97)
4. CHELSEA & NY are also available in a 21” size with matching Tribeca 21” sinks (page.....8 & 104)
5. PARK AVE collection is re-instated! We will carry all sizes in stock and they will have matching new Quartz tops (page.....38-39)
6. BROADWAY medicine cabinet is now offered in 3 different door models (Bevel, Polished Edge and Aluminum Trim) in 14 sizes (page....110-111)
7. SOUTH BEACH consoles now also have a recessed medicine cabinet, in Polished Stainless Steel (page.....106-107)
8. Adding 2 new 'Powder-room' type vanities to SPECIALTY category - ALEXA, BELLA & BOLERO (Matching Ceramic Sink) (page...90)
9. New ceramic sink models will be added to our web site, under CERAMIC SINK category
10. We have added a page called WHAT IS THE VANITY MADE OF throughout the book. It can be found on (page.....53, 81, 91)

### ***DISCONTINUED ITEMS:***

1. Items to be discontinued when inventory runs out are marked by  and are **grayed out**. Please check inventory before ordering.
2. CREAM & TRUFFLE marble tops are being discontinued. There is some good inventory left for certain models that can still be ordered. Please check with us before ordering.

In addition, we can supply you with EXCEL SHEET, to be downloaded into your computer, showing all item codes, descriptions, discounts per category, net cost, etc... Please e-mail your request to: [ora@empire-industries.com](mailto:ora@empire-industries.com)

## WHAT IS THE VANITY MADE OF?

### *WOOD VANITIES*

- Top and bottom frames and all posts are constructed of solid alder or Chinese ash woods.
- Door frames and side panel frames are also made of solid alder or Chinese ash woods.
- Door panels, side panels and drawer fronts are made of veneered MDF (MDF is used in these parts because it does not react to humidity, cold or heat and will not crack the solid wood door frames it's inserted into). This is especially important in shaped vanities with rounded doors.
- Back of the vanity is closed with stained plywood, with center perforation for plumbing. The back is stapled to the back frame and can be easily removed or cut in a different location, as needed.
- Products are stained with polyurethane primer and NC top coating.
- There are other types of wood used in the various parts of the construction. No particleboard or pressed wood are used.
- Drawers have dovetailed joint construction.
- Legs: Some collections do not have integral legs. Instead, the legs are to be screwed into the bottom frame before installation. They are packed separately in vanity carton (Malibu, Windsor, Doral). All legs have bottom levelers.

### *WHITE PAINTED VANITIES*

(Priva, Windsor, Newport, Malibu, Biltmore, Petite Empress, Contempo, Chelsea)

- White vanities constructed the same way as above. In addition, the outer sides of the vanity are covered with MDF, painted white paint.

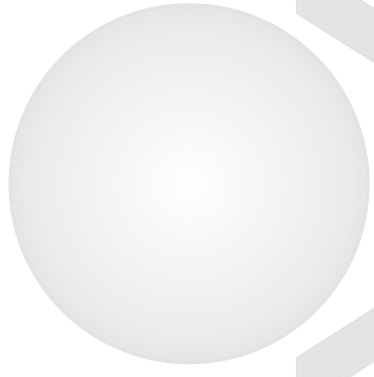

### *'THERMO-FOIL' VANITIES*

(Daytona, Metropolitan, Mini, Vienna)

- These vanities are assembled in-house with imported components. The doors and drawer fronts are made of MDF, covered with high quality, man-made 'Thermo-Foil' veneers in different colors. The construction is smooth and seamless.

### *CLEANING & MAINTENANCE*

- NO - Do not use detergents, oily polishes, or ammonia based cleaners. Avoid frequent cleaning with a waxy cleaner.
- YES – Wipe any excess humidity left on the outer parts of the item and ventilate the room well for quick evaporation. Moisture left on the wood over time will eventually penetrate the sealer and damage the finish.
- YES - Use a good furniture brand polish on your cabinetry. An occasional light waxing may be required.
- YES - To clean a soiled area of your cabinetry, use a damp cloth and mild dish soap. After wiping, immediately wipe again with a clean damp cloth. Dry with a clean dry cloth.

## WHAT IS THE VANITY MADE OF?

### *WOOD VANITIES*

- Top and bottom frames and all posts are constructed of solid alder or Chinese ash woods.
- Door frames and side panel frames are also made of solid alder or Chinese ash woods.
- Door panels, side panels and drawer fronts are made of veneered MDF (MDF is used in these parts because it does not react to humidity, cold or heat and will not crack the solid wood door frames it's inserted into). This is especially important in shaped vanities with rounded doors.
- Back of the vanity is closed with stained plywood, with center perforation for plumbing. The back is stapled to the back frame and can be easily removed or cut in a different location, as needed.
- Products are stained with polyurethane primer and NC top coating.
- There are other types of wood used in the various parts of the construction. No particleboard or pressed wood are used.
- Drawers have dovetailed joint construction.
- Legs: Some collections do not have integral legs. Instead, the legs are to be screwed into the bottom frame before installation. They are packed separately in vanity carton (Malibu, Windsor, Doral). All legs have bottom levelers.

### *WHITE PAINTED VANITIES*

(Priva, Windsor, Newport, Malibu, Biltmore, Petite Empress, Contempo, Chelsea)

- White vanities constructed the same way as above. In addition, the outer sides of the vanity are covered with MDF, painted white paint.

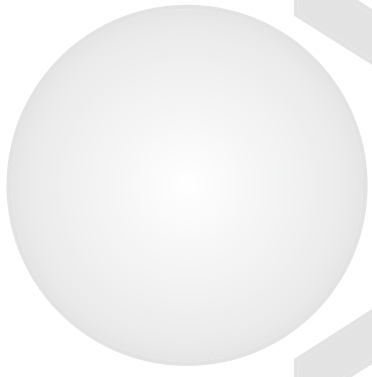

### *'THERMO-FOIL' VANITIES*

(Daytona, Metropolitan, Mini, Vienna)

- These vanities are assembled in-house with imported components. The doors and drawer fronts are made of MDF, covered with high quality, man-made 'Thermo-Foil' veneers in different colors. The construction is smooth and seamless.

### *CLEANING & MAINTENANCE*

- NO - Do not use detergents, oily polishes, or ammonia based cleaners. Avoid frequent cleaning with a waxy cleaner.
- YES – Wipe any excess humidity left on the outer parts of the item and ventilate the room well for quick evaporation. Moisture left on the wood over time will eventually penetrate the sealer and damage the finish.
- YES - Use a good furniture brand polish on your cabinetry. An occasional light waxing may be required.
- YES - To clean a soiled area of your cabinetry, use a damp cloth and mild dish soap. After wiping, immediately wipe again with a clean damp cloth. Dry with a clean dry cloth.

## WHAT IS THE VANITY MADE OF?

### *WOOD VANITIES*

- Top and bottom frames and all posts are constructed of solid alder or Chinese ash woods.
- Door frames and side panel frames are also made of solid alder or Chinese ash woods.
- Door panels, side panels and drawer fronts are made of veneered MDF (MDF is used in these parts because it does not react to humidity, cold or heat and will not crack the solid wood door frames it's inserted into). This is especially important in shaped vanities with rounded doors.
- Back of the vanity is closed with stained plywood, with center perforation for plumbing. The back is stapled to the back frame and can be easily removed or cut in a different location, as needed.
- Products are stained with polyurethane primer and NC top coating.
- There are other types of wood used in the various parts of the construction. No particleboard or pressed wood are used.
- Drawers have dovetailed joint construction.
- Legs: Some collections do not have integral legs. Instead, the legs are to be screwed into the bottom frame before installation. They are packed separately in vanity carton (Malibu, Windsor, Doral). All legs have bottom levelers.

### *WHITE PAINTED VANITIES*

(Priva, Windsor, Newport, Malibu, Biltmore, Petite Empress, Contempo, Chelsea)

- White vanities constructed the same way as above. In addition, the outer sides of the vanity are covered with MDF, painted white paint.

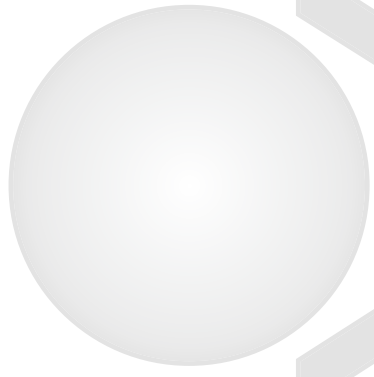

### *'THERMO-FOIL' VANITIES*

(Daytona, Metropolitan, Mini, Vienna)

- These vanities are assembled in-house with imported components. The doors and drawer fronts are made of MDF, covered with high quality, man-made 'Thermo-Foil' veneers in different colors. The construction is smooth and seamless.

### *CLEANING & MAINTENANCE*

- NO - Do not use detergents, oily polishes, or ammonia based cleaners. Avoid frequent cleaning with a waxy cleaner.
- YES – Wipe any excess humidity left on the outer parts of the item and ventilate the room well for quick evaporation. Moisture left on the wood over time will eventually penetrate the sealer and damage the finish.
- YES - Use a good furniture brand polish on your cabinetry. An occasional light waxing may be required.
- YES - To clean a soiled area of your cabinetry, use a damp cloth and mild dish soap. After wiping, immediately wipe again with a clean damp cloth. Dry with a clean dry cloth.

## CARE & MAINTENANCE OF GRANITE, MARBLE & QUARTZ TOPS

- GRANITE and MARBLE stones are natural materials; the variations in the minerals' make-up determine the color and appearance from one batch to the another or from one top to another. When sealed and cleaned properly, the natural stone will maintain its beauty for a very long time.
- MARBLE tops, like White Carrara or Crema Marfil, have a different composition than granite. They are more porous and often have inherent natural pitting, which cannot be considered as defects.
- QUARTZ stone is becoming more popular in our kitchens and bathrooms. Engineered, manmade Quartz is made of 95% natural quartz mineral. The outcome is a hard, solid surface, more resistant than granite, and virtually maintenance free.
- Please note, color and texture of actual top may vary from sample boards, showroom displays or images shown or web site images.

### HANDLE WITH CARE

- Tops are very heavy and fragile and must be handled with care.
- Slabs must always be carried / stored vertically, never flat.
- Long pieces should always be handled by two people in vertical position.

### SEALING GRANITE OR MARBLE

- The tops are pre-sealed. The sealer is a clear film that covers the surface. It is water resistant, not water-proof and will allow penetration of moisture if left on it!!! For extra protection, we recommend getting the top re-sealed after installation or before using it. Granite or marble sealer can be found at any good hardware store. Please follow the instruction on the box.
- Depending on usage, it will be a good practice to re-seal the top about twice a year.
- Please make sure it is thoroughly clean and dry before you seal it.
- If your counter is flooded with water and shows color variations, let it dry well for a few days in a well ventilated room. Once dry, if there are no more visible stains, you can proceed to re-seal.
- Please note – sealers will not protect the top from physical or chemical damage.
- QUARTZ - The countertop retains a natural shine. No sealing, waxing or polishing is required at any time.

### COUNTERTOP MAINTENANCE

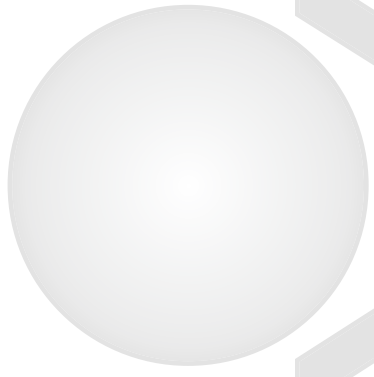

- Everyday use - dry well with soft cloth after use
- Cleaning - use cleaning agents designed specifically to clean granite or marble. Other detergents may leave film or residue.
- Blot any spills immediately with a paper towel – do not wipe the area as the spill will spread.
- Once stains appear, flush the top with water and mild soap several times, rinse well and dry with a soft cloth. Let it dry completely.
- QUARTZ - Even though Quartz is considered one of the most durable materials available, it is NOT 100% chip-proof, heat-proof or scratch-proof. DO NOT use acid cleaner (or lemon or vinegar), abrasive scouring materials, bleach or ammonia cleaners.

### LIMITED WARRANTY

- Empire Industries offers a limited lifetime warranty to the original homeowner. The item must be inspected upon receipt and before installation by the homeowner or his representative. We will not accept Return Goods requests for factory defects once the item had been installed.
- Empire Industries will not be liable for any costs and/or expenses involved in installation, or damages relating to the installation of a defective countertop, or relating to abusive maintenance of top as specified above.

## SPECIFICATIONS FOR STANDARD TOPS, OLYMPIC, EURO, QUARTZ

1. **GRANITE OR MARBLE SOLIDS** -1" thick - 8" Faucet Drill
  - OGEE edge surrounds the 3 sides, the bowl cut-out and the top of backsplash.
  - 4" backsplash is packed loose in every carton.
  - A bag of 4 clips and screws is packed in every carton (only for tops that do not have a bowl installed onto them). The underside of top has 4 female screws embedded.
  - Oval bowl cut-outs for K2210 or K2209 only (or equivalents), depending on model !
  
2. **OLYMPIC SOLID CARRERA WHITE MARBLE** – 1 5/8" thick - 8" Faucet Drill
  - NO OGEE edge, NO backsplash!! Top part is routed out about 1/8" with a small lip.
  - A bag of 4 clips and screws is packed in every carton (only for tops that do not have a bowl installed onto them). The underside of top has 4 female screws embedded.
  - Oval bowl cut-outs for K2210 (or equivalent )
  - Underside of faucet area is routed out to accept the faucet parts.
  
3. **EURO GRANITE OR MARBLE SOLIDS** – 1 ¼" thick - 8" Faucet Drill **NEW**
  - Eased edge on all 4 sides, bowl cut-out and backsplash
  - A 4" backsplash is packed loose in every carton.
  - A bag of 4 clips and screws is packed in every carton (only for tops that do not have a bowl installed onto them). The underside of top has 4 female screws embedded.
  - Rectangular cut-out (18"x12")
  
4. **QUARTZ SOLID EURO & NOVA** – 1 ¼" thick – 8" Faucet Drill **NEW**
  - 2 models: EURO - Rectangular cut-out (18"x12"), NOVA – oval cut-out (17"x14")
  - Eased edge on all 4 sides, bowl cut-out and backsplash
  - 4" backsplash is packed loose in every carton.
  - A bag of 4 clips and screws is packed in every carton (only for tops that do not have a bowl installed onto them). The underside of top has 4 female screws embedded.
  
5. **TRUFFLE MARBLE** – ¾" thick - 8" Faucet Drill (to be discontinued - while supplies last)
  - OGEE edge surrounds the 3 sides, the bowl cut-out and the top of backsplash.
  - A 4" backsplash is packed loose in every carton.
  - Construction: truffle rectangular pieces on top of ½" plywood. The top marble surface
  - is not solid; seams are visible. The top is well constructed and sealed.
  - A bag of 4 clips and screws is packed in every carton (only for tops that do not have a bowl installed onto them). The underside of top has 4 female screws embedded.
  - Oval bowl cut-outs for K2210 or K2209 only (or equivalents), depending on model!
  
6. **CREAM SOLID MARBLE** – 1 ¼" thick - 8" Faucet Drill (to be discontinued - while supplies last)
  - OGEE edge surrounds the 3 sides, the bowl cut-out and the top of backsplash.
  - A 4" backsplash is packed loose in every carton.
  - A bag of 4 clips and screws is packed in every carton (only for tops that do not have a bowl installed onto them). The underside of top has 4 female screws embedded.
  - Oval bowl cut-outs for K2210 or K2209 only (or equivalents), depending on model!

## TERMS & CONDITIONS

### *PRICING*

This retail price list supersedes all previous price lists. Prices and specifications are subject to change without prior notice.

### *AVAILABILITY*

We reserve the right to discontinue any product at any time without advance notice.

### *ORDER CONFIRMATION*

All orders are confirmed via computerized fax or e-mail within 24 hours of order entry. Please look for it as it confirms quantity, model numbers, pricing and lead time. Please let us know if you are not receiving them.

### *CANCELLATION OF ORDERS*

You may change or cancel an order at any time prior to shipment or pickup. A restocking fee will apply to changes or cancellations after shipping.

### *FREIGHT*

All shipments are F.O.B. our warehouse in Paterson, NJ or Artesia, CA. Palletized shipments via common carrier are shipped freight prepaid and billed to customer unless other arrangements are made prior to shipping.

### *GENERAL WARRANTY*

EMPIRE INDUSTRIES INC. warrants our products for one year from the date of purchase to the original purchaser to be free from defects in material and workmanship. Damage caused by accident, misuse or abuse is not covered by this warranty. At our option, we will either have you send the defective part or product to us for inspection, or we may elect to send you a replacement part or product without any charge.

This warranty is valid for the original purchaser only and excludes industrial, commercial or business use of the product. Product damage due to installation error, product abuse or product misuse, whether performed by a contractor, service company, or yourself are not covered by this warranty. Empire Industries Inc. will not be responsible for labor charges, injuries or any other loss or incidental or consequential damage whatsoever.

All EMPIRE Collections are handcrafted from natural materials like wood, stone, glass and iron and finished by skilled artisans. Small irregularities in shapes, surfaces and finishes are consistent with such craftsmanship and the materials should not be considered to be defective. The actual items may vary in color from the photographs shown in the catalog or on the website. Specifications of individual items are subject to change and may differ from those shown or stated.

## RG A PROCEDURE

1. **RG A requests are not considered as re-order Purchase Orders !!!** If there is a need to replace an item, the please issue a new PO for it. The RGA is to be faxed separately as it is handled by a different department. (fax: 800-367-4738 / 973-279-8987)
2. When you want to return merchandise (for whatever reason), please fax or e-mail Return Goods Request to us. There is no specific form. The request is to be faxed or e-mailed on the store letterhead should have the PO number, the reason for return, name and phone/fax numbers of the contact in the store. The more information we have, the fewer questions we will have and the sooner it will be processed.
3. We will look into the PO (what are the items, how long ago they shipped, if a replacement part or touch up kit can solve the problem, etc.) and respond via fax or e-mail with our RGA form - Return Goods Authorization, to the contact on your request.
4. CUSTOMER CANCELLATION - If the reason for the Return is Customer Cancellation, the items must be in original unopened cartons with all packing materials intact and in good sellable condition in order to be returned. The items are to be shipped back to us at your expense. They will be inspected upon arrival and if found to be in good condition, we will issue credit, less 30% restocking fee. On these occasions, and when items can only be returned on a pallet (LTL), we recommend that you sell the items off the floor.
5. As a general rule, granite tops (without bowls installed) and mirrors, being heavy fragile items, are more likely to break during shipping and must be kept vertical. Returning them is hardly feasible.
6. Items found to be defective will either be returned to us at our expense or will be field destroyed. We will advise the customer via the RGA how to handle it.
7. Sometimes we will ask for your help in looking into return requests by getting digital pictures. We know you are supposed to take care of your customers but try to stay objective – if it's not our fault, we don't have to 'eat' it...
8. Granite and Marble countertops are the most fragile items to ship. When they are ordered without a bowl attached, they are packed/strapped to another box vertically – this is the only way to handle them until they are installed. Many times, the piece remains in your Receiving area, being moved and shoved until it breaks or cracks. Then we end up with RGA request and start a 'no-win' investigation.
9. Countertops that ship with bowls installed are re-packed in reinforced cartons and placed flat on top of the pallet, or better yet, on top of a vanity. In addition, all of our shipping documents are stamped with a red stamp, stating that: Granite/Marble tops must be inspected upon receipt. No damage claims will be accepted after item is signed for.
10. We are doing everything we can to make sure the tops are received in good condition. It's your responsibility to sign the receipt of non-damaged items and to deliver them to your customer in the same condition.
