

Hi -

I need to let you know of a change concerning the Water Filter Spout from MGS. The Water Filter Spout shown in the catalog and on display (WF-M, WF-P) is no longer available. MGS will have a new Water Filter Spout available at the end of November which will be part of the SPIN collection. Attached is an image of the new Water Filter.

If you have a Water Filter Spout on display, it is complete, and can be used to complete an order if necessary.

Sorry for any inconvenience this may have created. However, I'm sure you'll want to inform your staff of this change.

We have one Water Filter spout in stock in Polished.

Please contact me at MGS with any questions.

Best regards,

Eric
