# COOL IN THE KITCHEN.

Great meals start with  
great ingredients.

## DCS BY FISHER & PAYKEL BRINGS INNOVATION TO THE FOREFRONT WITH ACTIVESMART™ TECHNOLOGY THROUGH THE LAUNCH OF THE FRENCH DOOR REFRIGERATOR

DCS once again brings "cool" to the kitchen with the introduction of their French Door Refrigerator. Be the first to view and experience the new model that surpasses other professional cooling appliances by a landslide.

THE 36" FRENCH DOOR WILL BE AVAILABLE IN MARKET DECEMBER 2011

### REFRIGERATOR KEY FEATURES

#### Complementary Styling

High quality stainless steel finish, tall handles, hidden hinges and an option of a surround kit.

#### French Door Access

Maximizes space as well as access; this is a refrigerator for entertaining.

#### Ergonomics

Quality full extension runners allow you to fully slide out produce and slim bins for easy loading and unloading.

#### ActiveSmart™ System

ActiveSmart™ refrigerators do the thinking for you by sensing and responding to daily use.

#### Humidity Control System

The Humidity Control System creates the perfect environment for fruit and vegetables in each bin.

#### Ice & Water

The fully integrated in-door water dispenser and internal ice maker have no impact on valuable storage space.

## FRENCH DOOR REFRIGERATOR RF195
