

Franke Marketing Bulletin

DWO - FHK71036WH & LN & Waste Disposers

FHK710-36WH / FHK710-36LN

We regret to inform you that the FHK710-36WH and FHK710-36LN fireclay sinks will no longer be carried in the Franke product line. The tool which produced the sinks has been irreparably damaged and despite our best efforts, was unable to be salvaged.

Based on current rate of sale, we anticipate having inventory of the Linen sinks (FHK710-36LN) until May. Should the rate of sale change, so will the availability rate.

Thank you for your patience while we determined our course of action.

WASTE DISPOSERS

We are also discontinuing the Franke waste disposers listed below, in order to make way for our new, improved line of disposers in Spring of 2012. There is still plenty of inventory at a very attractive price.
